

# CROWNING GLORY

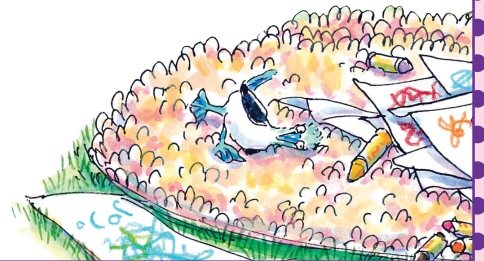

Ten years ago, in her very first book, Nancy showed her family—and the world—how much fun it is to be fancy. And a big part of being your fanciest is wearing headgear fit for royalty. Here's how to make your own fabulous crown.

## YOU'LL NEED:

- 👑 Pink and gold posterboard
- 👑 Markers, crayons, etc.
- 👑 Decorations like plastic gems, ribbon, glitter, sequins, stickers, beads, etc.
- 👑 Scissors
- 👑 Glue stick
- 👑 Stapler and tape

## INSTRUCTIONS:

1. Fold the posterboard in half and draw a crown design several inches up from the bottom. The bottom of the board will be the bottom of your crown, so you only need to draw the design at the top.
2. Cut out the shape you've drawn. Have additional 2" strips of posterboard ready.
3. Decorate with gems and other decorations.
4. Glue ribbon around the bottom.
5. Pull the ends around in a circle. Check the size of the prince or princess's head and add a piece from your extra strips if needed.
6. Then, staple the edges closed and put a strip of tape over the staples so they don't catch on hair.

**Safety Note:** This craft involves cutting and gluing. Please ask an adult for assistance.
